Introduction about me

Hello! I'm Rosie, I'm 8 years old. I live in Bexley which is in Kent. Welcome to my Animal Funbook! My logo is Rambling Rose because I love the roses climbing up the fence in my garden, and I also like to ramble in nature! In my animal funbook there will be fun games, facts, a competition, and pictures of cute animals! I hope you like it! Enjoy!

Red Panda

Red Pandas are different to giant pandas because they are smaller and they are not black and white, they're mainly red, the legs are black and they have little white bits on their faces. Red Pandas were once part of the raccoon family, but now they are part of the panda family! In the winter red pandas curl their tails around themselves to keep warm!

They live in the Himalayas!

So cute!

- Cuddly
- Cute

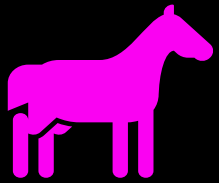

Who am I?

- I am fierce
- I am a carnivore
- I live in India and Asia
 - I live on my own
- I am a very good swimmer
- It is my favourite animal!

Who am I?

Zebra

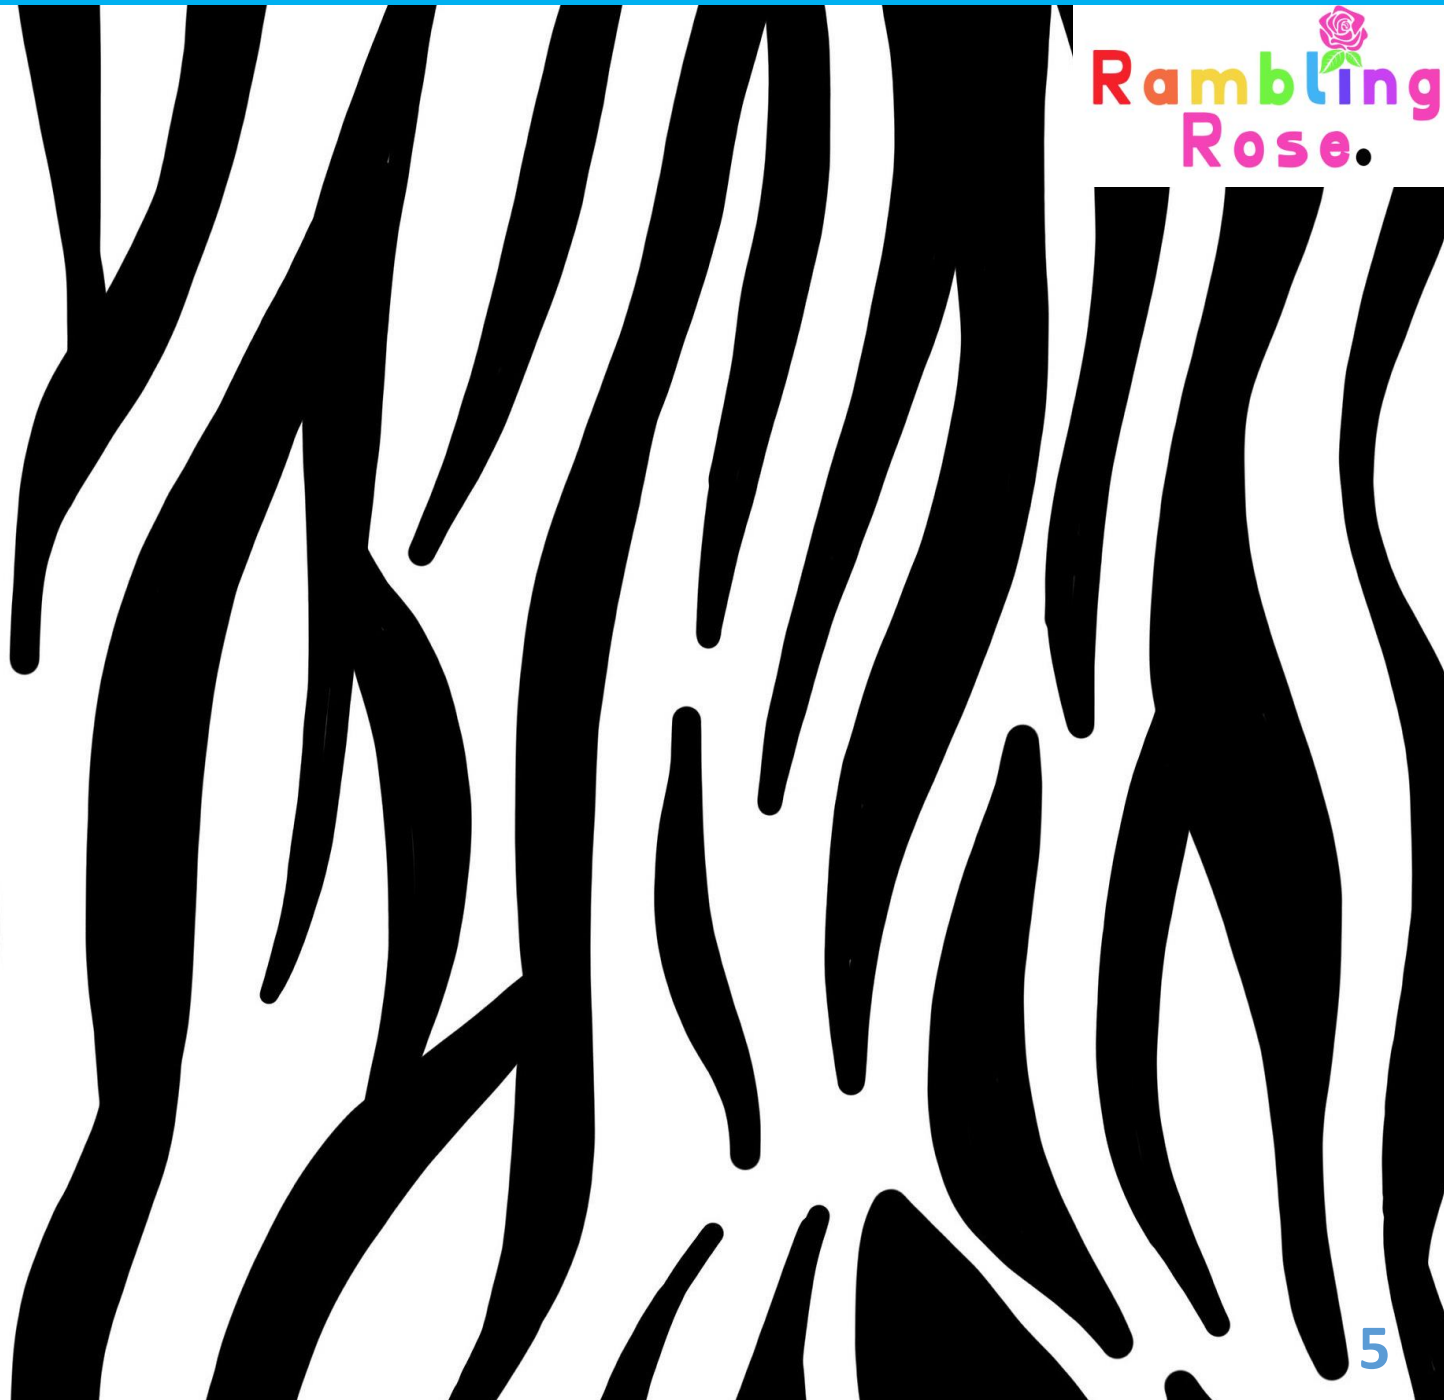

Zebras have black noses. This means they're black with white stripes.

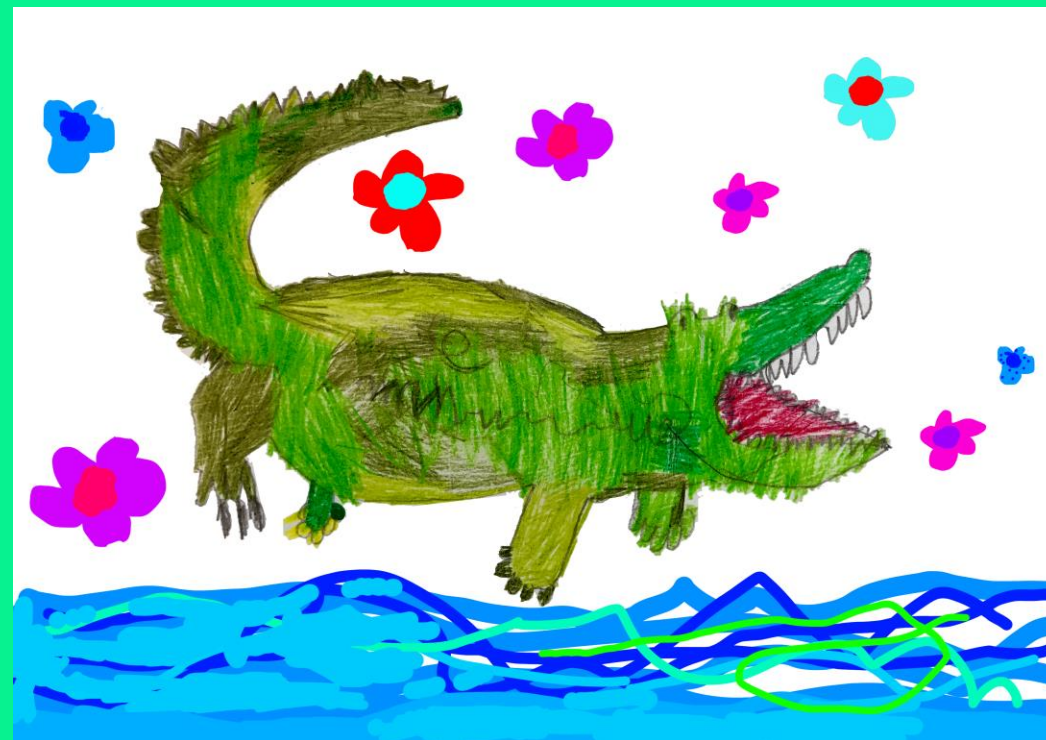

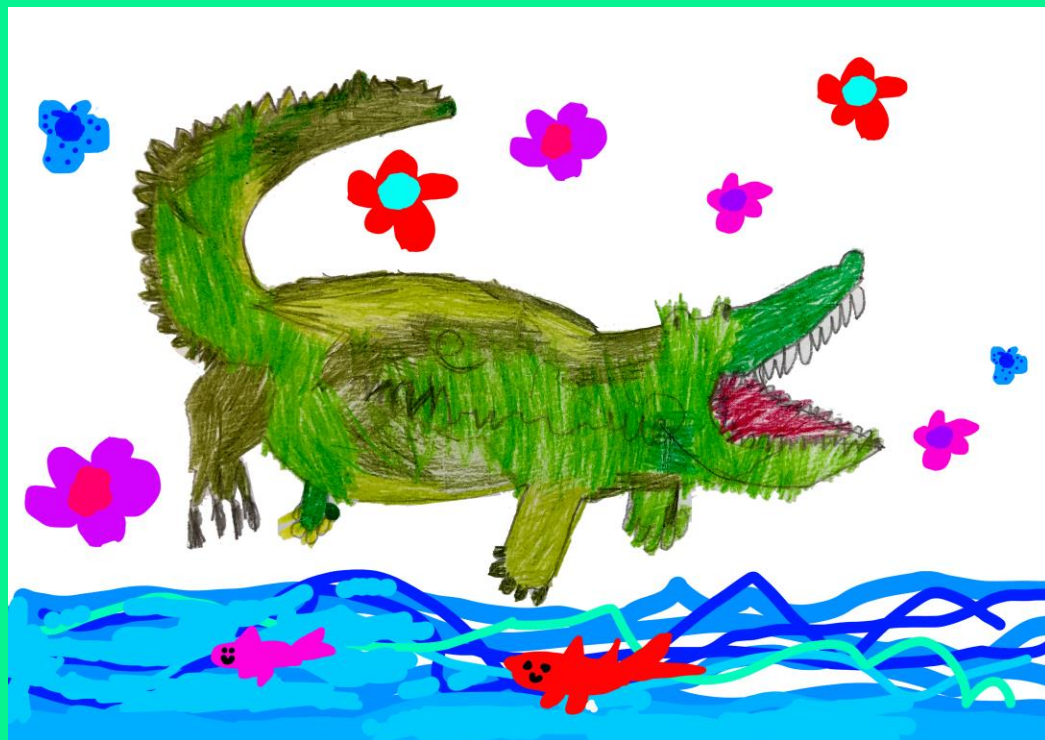

Every stripe on a zebra is unique, no zebra is the same.

Scientists think their black and white stripes are a cooling system. The black absorbs heat, and the white reflects it. This is called 'albedo'.

Crocodiles

Spot the 8 differences in the 2 crocodile pictures!

Did you know? Crocodiles lived with the dinosaurs, millions of years ago!
Crocodiles have V shaped snouts and a toothy grin, but alligators have a U shaped snout!

Look at Me!

ADORABLE!

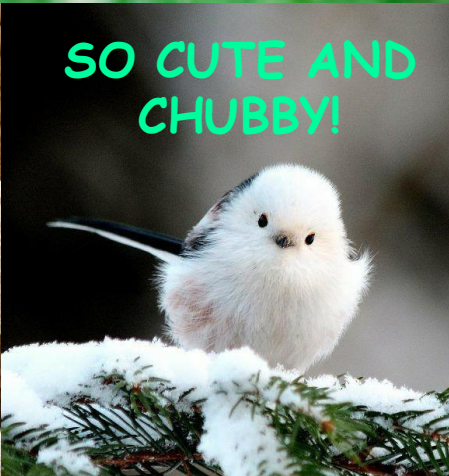

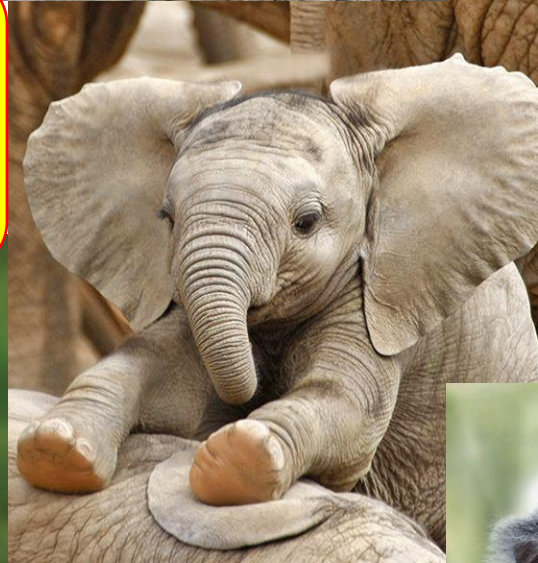

Look at these CUTIES!
Who is your favorite?

I'm cute and fluffy!

I'm snappy!

SO CUTE AND CHUBBY!

Polar Animals

Penguin

Muskox

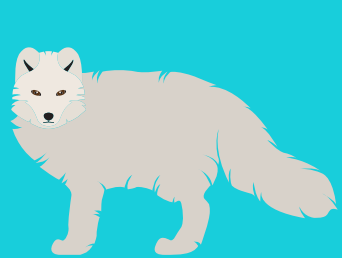

Fish

Polar bear

Arctic

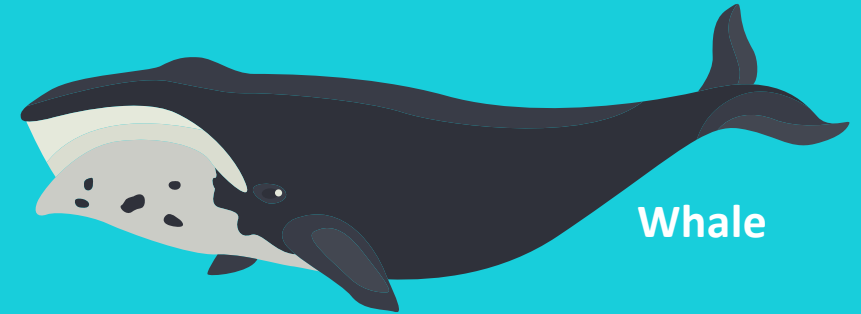

Antarctic

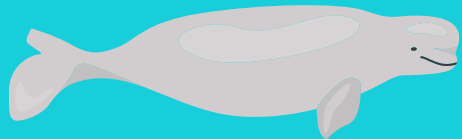

Arctic fox

Reindeer

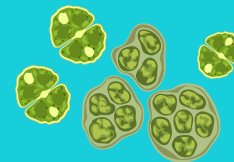

Whale

Beluga whale

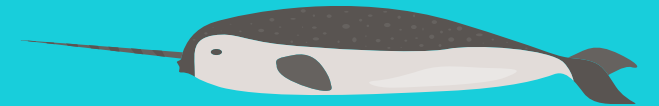

Snowy owl

Algae

Seal

Narwhal

Can you match the Polar Animals to their habitat - the Arctic or the Antarctic?

MATCH THE ANIMAL

Can you match the animals to their collective nouns?

Bees

Camels

Cobras

Crocodiles

Donkeys

Elephants

Ferrets

Flamingos

Frogs

Geese

Bask

Quiver

Drove

Swarm

Caravan

Stand

Ravens

Snakes

Sharks

Tigers

Toads

Smack

Barrel

Band

Cackle

Shadow

Nest

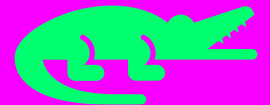

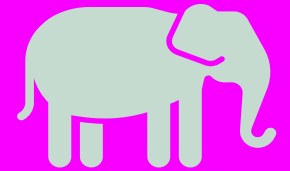

Shiver

Knot

Parliament

Streak

Unkindness

The first one has been done for you.

True or False?

Narwhals (otherwise known as the unicorns of the sea) have a horn on their head which is actually a tooth.

T / F

Camels store water in their humps.

T / F

Waterbears are the strongest animals in the world.

T / F

Foxes use the Earth's magnetic field to catch their prey.

T / F

Koalas are a bear.

T / F

Elephants drink water through their trunks.

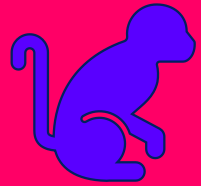

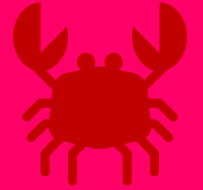

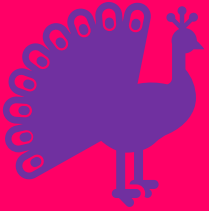

T / F

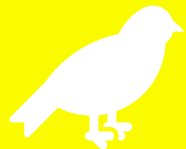

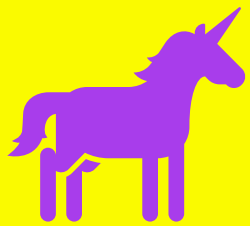

QUIZ TIME!

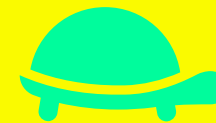

I have a quiz for you!

1. What is the word to describe where animals live?
2. Name the important energy source at the bottom of every food chain.
3. What is an ecosystem?
4. Life began in the ocean billions of years ago. What is the special process that produces oxygen to support life?
5. Can you name the 6 main animal groups?
6. Animals without a backbone are called...
7. Name one thing you can do to help the environment?

Name the animal

Guess the small animal pictures.
