

Creators: Summer 2 2026

English: We'll be writing reports and informal letters, with a little poetry thrown in, as well.

Maths: We're converting measurements, including mass, length and distance. We'll also consolidate our learning for the year.

Science: We'll be looking at human lifecycles. We'll also be having a separate puberty talk. See dojo for more info, if you'd like to view the content before your child.

RE: We'll be answering the question: Who should get to be in charge?

Learning beyond the classroom: We will be enjoying many active maths and English lessons, where we combine exercise with problem solving.

Many will be enjoying time away for the residential. Those who are not going will enjoy different outdoor and indoor based activities, including teamwork and creativity.

Home learning: Reading for 20 minutes, 5 times per week is the most important homework. Some students have not completed this. Please ensure to do this with your child.

Also, complete TTRS at least 10 minutes a day to make maths easier for your child.

Author of the term: We will be reading the exciting spy book written by Anthony Horowitz : Alex Rider.

History/Geography: We'll be exploring how children's lives have changed over the years.

PE: Come to school in PE kits Mondays and Fridays. We'll be working on running and sports day prep as well as rugby.

Computing: Online safety will focus on health and wellbeing. We'll also look at video production.

Art/DT: We're going to look at designing and sewing.

Music: We'll be enjoying learning about musical theatre and emulating our favourite songs.

PSHE: We'll be working on transitioning into our new role as leaders in the school as year 6.
